Materialise Software Registration Procedure

There are two basic methods for self-registration of Magics:

- Instant Activation (fastest and easiest)
- Web and e-mail

Instant activation:

Magics versions 16 and later have an Instant Activation function. First choose to activate a license.

- This data entry box is specific: the four digit groupings **MUST** be separated by dashes
- There can be no extraneous characters or spaces
- The number is hexadecimal, only the letters A F and the numbers 0 9 are permitted

In the next page, <u>make sure you enter the System ID from your current install of Magics</u>. The "Current System ID" is **simply what the Materialise database shows as the last computer with a license**. If you have installed Magics on a new computer, the "Current System ID" won't match the System ID displayed in Magics. If all the data is correct, click "Next."

Click "Request password" and the new key file/password will be e-mailed to the e-mail address entered on the previous page.

Once you receive the e-mail with the key file attached:

Save the key file somewhere on the local machine (and don't bury it too far off the C drive). Then in the Magics registration dialog box, choose the License radio button.
